Working together in one Spirit

ARTWORK

Title - Life is Gold

Using the Mobius strip as a metaphor for our journey through 'Life', carrying within us the essence of all beginning, the energy, foundation and breath of life as we use the key to shape our purpose. Our external experiences shape who we are and our internal thoughts shape our reality.. The infinite path we walk has no barriers, it is our golden opportunity to expand our perspective.

Title - Love and The Biosphere

Biophilia is our natural 'Love' for all living things to which we are inextricably linked. We have evolved alongside nature, we are a part of it and when we are amidst it our wellbeing is improved.

Title - Temptation

The sensuous implication the apple bestows upon us throughout art, religion and its physical desire acts as the 'Temptation' giving off its sweet sugar scent summoning the foraging bee, but like the ant, we are biologically wired to pursue the sweetness of its seduction...

Sherilyn Bury Vileia

Multimedia Artist Diploma of Art and Creativity,
The Learning Connexion.

Sherilyn enjoys creating works from all manner of materials to accomplish her visions. Often relating to the environment and our place within it; her artworks feature bright and bold colour, various textures sometimes utilising fabrics from her work in the fashion industry and always embodied with her quirky sense of humour. Her pieces in this latest collaboration with the Arts Collective focus on Life, Love and Temptation.
